ABOUT US

Toolcom is powered by a team of experienced technocrats with 20+ years of expertise in plastic, Die casting product manufacturing. We prioritize investing in the latest technologies and employee development.

Our customers recognize our proficiency in tool-making, injection moulding and Die casting. With an unwavering commitment to excellence, we deliver top-quality products at competitive prices.

VISION

We Envision ourselves to be an internationally recognized solutions provider in product development and its related processes.

CORE VALUES

At Toolcom, we firmly believe that our expertise in the field, along with a dedicated work culture and fostering the collective growth of our internal and external constituents, will lead to long-term success for the organization.

MISSION

Our mission at Toolcom is to deliver the most reliable products and services by leveraging state-of-the-art infrastructure, best practices, and a strong commitment to our customers. We excel in moulding solutions and tool development, focusing on four key deliverables: cost-effectiveness, superior quality, on-time delivery, and exceptional service.

SERVICES

At Toolcom, we guarantee high-quality service, rapid responses, and dedicated technical support to meet all your unique requirements. Your satisfaction is our priority, and we are committed to providing the best assistance for your needs.
